

# HIBISCUS

## *Flowering Period:*

Flowers on and off year round, more prolifically during the spring and summer.

## *Light:*

Must have three to four hours direct sun to keep producing new flowers.

## *Water:*

Keep evenly moist. Water thoroughly when soil is dry across the surface. Fertilize monthly, March through October, with an all purpose houseplant fertilizer.

***If you don't see it, please ask ~ We special order.***
