

HYDRANGEA

Flowering Period:

Available late winter and spring. Temporary indoor bloomer. Blooms for 3 to 6 weeks. Can be cut back and planted outside when done blooming. Bloom color is effected by soil pH - blue flowers in acid soil, pink in alkaline soil. Add soil acidifier for blue flowers. Add lime for pink flowers.

Light:

Bright indirect light. Protect from intense direct sun.

Water:

Soil should always be moist, but do not leave in standing water. It may be necessary to check plant daily for water.

If you don't see it, please ask ~ We special order.
